

**University of Florida
Department of Statistics**

A Postdoctoral fellowship is available 8/1/09, to work with Professor George Casella developing statistical methods for analysis of genetic and genomic data. PhD in statistics or equivalent, with strong computational skills, required. Knowledge of genetics or genomics preferred. Send cover letter; transcript; three recommendation letters to casella@ufl.edu. Application reviews begin on or before May 1, 2009 and continue until position is filled.
